

WIRE BASKETS & DIVIDERS

VIRTUALLY INDESTRUCTIBLE

Constructed from welded steel wire, then given a liberal plastic coating which prevents corrosion even when used out doors.

SIMPLE ASSEMBLY

Four chromed bolts (supplied free of charge with basket) locate through built in loops at each end of basket into female base rods of basket above.

STABLE FREE STANDING STACKS

The assembling system of FIL PLASTIC allows you, the user, to decide on height of stack and location, no additional support is needed.
